PROFESSIONAL SUMMARY

Full-stack Java Developer with hands-on experience in **Spring Boot, React, REST APIs, MySQL, and cloud deployment**. Skilled in building scalable web applications with secure authentication, database integration, and responsive user interfaces. Strong foundation in **DSA, OOP, Java, and Software Engineering**. Seeking Backend or Full-Stack Developer roles.

SKILLS

Programming: Java, Python
Frontend: React, HTML, CSS
Backend: JDBC, JEE, JSP, Spring Boot, Hibernate
Database: MySQL, PostgreSQL
Core Concepts: OOPs, Data Structures & Algorithms, Networking

PROJECTS

Study of Projectile Motion using Augmented Reality Aug 2023 – May 2024
C#, Unity *GitHub*

- Implemented an **AR projectile-motion simulator** in Unity using C#, enabling real-time visualization of trajectory, velocity, and acceleration through interactive 3D overlays.
- Integrated controls for **launch angle, initial velocity, and gravity**, allowing educators to conduct dynamic physics demonstrations.
- Designed an intuitive user interface that improved usability and was validated with **20+ students** during pilot testing.

E-Commerce Web Application Mar 2026 – Jun 2026

Spring Boot, React, MySQL, JWT, REST APIs

- Built a full-stack **e-commerce platform** using Spring Boot and React with **10+ REST APIs** for products, cart, authentication, and order management.
- Implemented **JWT authentication** and **Role-Based Access Control (RBAC)** for Admin and Customer roles, securing protected endpoints.
- Designed a normalized **8-table MySQL schema** and integrated Hibernate ORM for efficient database operations and scalability.

EXPERIENCE

AI RoboSoft Aug 2023 – Sep 2023
AI & ML Intern

- Collected, cleaned, and preprocessed datasets containing **50,000+ records** using Python and SQL, improving data quality and model readiness.
- Performed **Exploratory Data Analysis (EDA)** using NumPy, Pandas, Matplotlib, and Seaborn to identify trends and anomalies.
- Automated repetitive preprocessing workflows through Python scripting, reducing manual effort by approximately **40%**.
- Prepared EDA reports and shared findings with senior engineers to support feature-selection decisions.

Tap Academy Apr 2026 – Present
Java Full Stack Web Developer

- Developing full-stack web applications using **Java, Spring Boot, React, JSP, JDBC, and MySQL**.
- Building RESTful APIs, implementing authentication mechanisms, and integrating relational databases.
- Collaborating on real-world projects while following software development best practices and version control workflows.

ACHIEVEMENTS

- Successfully developed and deployed multiple academic and full-stack projects using Java, Spring Boot, React, and Unity.
- Achieved a strong academic record with a **CGPA of 8.59** in Computer Science Engineering.

EDUCATION

Atria Institute of Technology, Bangalore 2020 – 2024
B.E. in Computer Science and Engineering *CGPA: 8.59*
Himalayan Public School, Patna 2018 – 2020
Higher Secondary (Class XII) *Percentage: 92%*
